PROFESSIONAL SUMMARY

Aspiring Full Stack Software Engineer (2027 Batch) with hands-on experience building secure, scalable, production-grade web applications using JavaScript, and React.js. Experienced with Git-based version control workflows and responsive frontend development. Eager to contribute to real-world product development as a Software Development Apprentice.

EDUCATION

B.Tech — Information Technology Meghnad Saha Institute of Technology, Kolkata	2023 – 2027
CGPA: 8.3/10 Coursework: DSA, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering (SDLC)	
Higher Secondary (Science) Raghunath Bari R.T. High School	2020 – 2022
Percentage: 83.8%	
Secondary Education Kaminachak Sasibhusan Kanailal Vidyayatan	2019 – 2020
Percentage: 85%	

TECHNICAL SKILLS

Languages: Java, SQL, Python

Backend: Node.js, Express.js, JWT

Frontend: React.js, JavaScript, HTML5, CSS, Tailwind CSS

Databases: MySQL, MongoDB, Relational Databases

Tools: Git, GitHub, Vercel, WebRTC

EXPERIENCE

Frontend Developer Intern | CodeAlpha (Remote) [Link](#)

- Developed a full-stack personal finance application using React.js, Node.js, and MongoDB with secure JWT-based authentication.
- Built real-time dashboards using Chart.js to improve financial data visualization and usability.
- Implemented CSV data import and goal-based savings features, reducing manual effort by 40%.
- Designed responsive user interfaces, improving accessibility across desktop and mobile devices.

PROJECTS

MentorSpace — One-to-One Mentorship Platform | [Link](#)

- Built a WebRTC-based mentorship platform with real-time video and collaborative coding.
- Developed secure REST APIs and deployed scalable backend services.

MSL-MSIT — Tournament Portal & Real-Time Bidding System | [Link](#)

- Built a real-time bidding system and optimized MongoDB performance.
- Deployed the application on Vercel and Railway.

Music Hub — Full-Stack Music Streaming Platform | [Link](#)

- Built a full-stack music streaming platform with secure authentication and collaborative playlists.
- Optimized performance with caching and serverless deployment.

Locallie — AI-Powered Civic Reporting Platform | [Link](#)

- Built an AI-powered civic issue reporting platform with role-based dashboards.
- Integrated AI automation, maps, and gamification for enhanced user engagement.

CERTIFICATIONS & ACHIEVEMENTS

- HTML5, Python, Flask Framework (Django) — [Udemy](#)
- Data Analytics Essentials — [IBM Digital Credential](#)
- LEAD(Competitive Programming/DSA)— Hackerspace, Coding Community of MSIT.
- Winner of Smart India Hackathon (Internal) 2025.
