Professional Summary

Aspiring Full Stack Software Engineer (2027 Batch) with hands-on experience building secure, scalable, production-grade web applications. Experienced in Git-based workflows and responsive frontend development. Seeking opportunities to contribute to real-world product development as a Software Development Apprentice.

Education

B.Tech — Information Technology 2023 – 2027
Meghnad Saha Institute of Technology, Kolkata
CGPA: 8.3/10
Relevant Coursework: DSA, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Higher Secondary Education (Science) 2020 – 2022
Raghunath Bari R.T. High School
Percentage: 83.8%

Secondary Education
Kaminachak Sasibhusan Kanailal Vidyayatan 2019 – 2020
Percentage: 85%

Technical Skills

- **Languages:** Java, SQL, C
- **Frontend:** React.js, JavaScript, HTML5, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js, JWT
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Vercel, Render

Experience

Frontend Developer Intern — CodeAlpha (Remote) | *Link*

- Developed a responsive personal finance web application using React.js with a clean and user-friendly interface.
- Built interactive financial dashboards and data visualizations using **Chart.js** for better understanding of financial information.
- Implemented CSV data import and goal-based savings features to simplify financial management.
- Designed responsive UI components for seamless accessibility and usability across desktop, tablet, and mobile devices.

Projects

Music Hub — Full-Stack Music Streaming Platform | *Link*

- Integrated **Socket.IO** to enable real-time collaborative playlists and instant user notifications.
- Built a persistent audio player with equalizer and sound mixing using the **Web Audio API**.
- Configured **Multer** and **Cloudinary** for audio file uploads, image storage, and streaming delivery.

- Implemented **PWA caching** and offline storage for uninterrupted track playback without internet.
- Secured application using **Google OAuth** and **JWT** with role-based access control for an admin panel.

MSL-MSIT — Tournament Portal & Real-Time Bidding System | *Link*

- Engineered a tournament platform managing player/manager registrations, payment verification, and automated bracket scheduling.
- Built a real-time auction and live match center with budget validations for bidding, in-game event logging (goals/cards), and stat aggregation.
- Optimized backend throughput via Mongoose serverless connection pooling, database indexing, and in-memory stats caching.
- Streamlined media delivery via Sharp and Cloudinary, compressing user uploads to cut roster API payload sizes by ~50%.

Certifications & Achievements

- Attended the Indian Navy Pilot Entry SSB Interview at 12 SSB, Bengaluru — November 2026.
- Data Analytics Essentials — *IBM Digital Credential*
- LEAD (Competitive Programming / DSA) — Hackerspace MSIT
- Winner — Smart India Hackathon (Internal) 2025

Hobbies

- Playing Cricket
- Playing Football
- Playing Badminton
